Dear Colleagues

### **FUNDING FOR INNOVATION: CONNECTED VEHICLE DATA**

This letter is in relation to the application for funding for the DfT competition highlighted above.

As Section 151 Officer for the Authority, I can confirm that I am confident for the bid to be submitted and considered. Should we be successful, I can confirm that Derby City accepts liability for any additional costs over the Department's agreed contribution and any spend after 31 March 2019 will be managed by the authority.

I trust this provides a high level of confidence that Derby City Council are fully committed to the delivery of this project, contributing a total of £5,136 to make the best use of this opportunity. We also have a commitment from our partner Vaisala Ltd to contribute £4,723.40 in kind towards the project, as well as from ISS, a contribution of £2,625 towards the hardware required. This offers a total local contribution of £12,484

Should you require any further information, please do not hesitate to contact me.

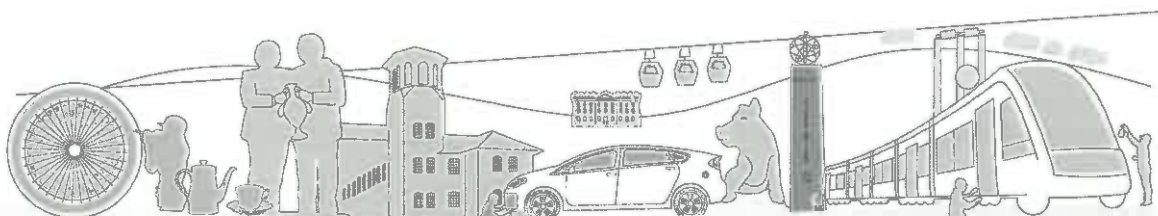

We look forward to hearing the outcome of this bid.

Yours sincerely

Don McLure  
Interim Strategic Director of Corporate Resources
