**UK National Bus Driver of the Year:
Karen Miles**

I love my driving job. I get to meet so many different people every day and have a laugh with them.

I love the little conversations and how I start their day off right, taking them to work or to meet family and friends, and finish their trips right too.

It's a career with training and many benefits, plus you are part of a real team that works so well together.

how do I join?

[trentbarton.co.uk/jobs](https://www.trentbarton.co.uk/jobs)

Case study 1: DALS learner

Why did you apply for the course ?

I really wanted a new challenge, I have many transferable skills and the role sounded something I would be interested in . My advisor asked if I had a driving licence and referred me across it was that simple.

How has completing the course benefited you?

I had been unemployed for 2 years and it was a great opportunity after lock down for permanent work , something different. I had done warehouse work before but this was on temporary contracts

What difference has the course made to your life?

Inspired me, enabled me to feel a success. I now have permanent work and not going month to month worrying where my next job will be.

What was the best thing about the course?

The chance to progress at the end of the course, I have been on numerous courses before with no success , this course had direction and a job at the end.

What would you say to any interested in applying?

Go for it, I am glad I did!
