

May 2022 - Barry, HelloFresh

Barry had been out of work for approximately 6 months and had extensive working history in warehouse settings and had also worked long service as an industrial cleaner.

He was keen to go back to work and ideally wanted a warehouse job of some description, he did specify he would prefer permanent work Monday - Friday roles with regular shift patterns rather than erratic hours.

Derby Jobs Weekly provided Barry with the full time opportunity for employment through HelloFresh. Barry was signposted to Derby Jobs Weekly through The JETS Programme through Shannon his work coach with Reed in Partnership. Barry was only on programme a short time due to his dedication to the programme and commitment to finding employment he started work quickly.

Barry commented, "I am really excited to start work and looking forward to a permanent position with HelloFresh. Derby Jobs Weekly provides a great resource for jobseekers to get back into employment."
