

## January 2023 - David, Reed in Partnership

David wanted support with seeking a new career role after working as a Security Guard for several years he registered with Reed in Partnership in December 2021. In addition, David desired to learn how to manage his health conditions so that he could try and live a better quality of life.

He continued with his road to recovery, not missing appointments and accepting the support offered. David attended Derby Jobs Live sessions and also saw the vacancies in the Derby Jobs Weekly and went on to apply for a role at Hello Fresh, Derby. Embracing this opportunity as a new start and having passed all his assessments and secured a full-time role at Hello Fresh.

David continues to receive support from Reed In Partnership for up to six months whilst he is working and from his new employer.

David's Work coach as Reed said "We at Reed In Partnership are delighted with David's resilience tenacity and willingness to succeed we wish David every success for his future"
