

Pharmaceutical Needs Assessment, 2018-2021

Supplementary Statement 03

This supplementary statement has been prepared and issued by the Derby and Derbyshire Joint PNA Steering Group on behalf of the Derby City and Derbyshire County Health & Wellbeing Boards, in accordance with the requirements set out under the National Health Service England (Pharmaceutical Services and Local Pharmaceutical Services) Regulations 2013 (SI 2013 No. 349) and amended in 2014, 2015 and 2016 [“the Regulations”]. The statement has been issued in accordance with Part 2; 6 (3) of the Regulations and updates the [Pharmaceutical Needs Assessment \(PNA\) 2018-2021](#) published by the aforementioned Council’s on 26th March 2018. The updated information that follows supersedes some of the original information contained within the PNA and should be read in conjunction with that document and Supplementary Statement 01 and 02. Changes noted reflect those that have occurred between the dates of 1st October 2018 and 31st December 2018.

Table 2 highlights the change in number and rate of community pharmacies per 100,000 head of total population. In June 2018 the Office for National Statistics (ONS) published the mid-2017 population estimates for UK, England and Wales, Scotland and Northern Ireland¹ which updates the previously published mid-2016 figures used in the PNA 2018-21. Taking into account these and the cumulative changes to provision since publication of supplementary statement 02; Amber Valley, Bolsover, Erewash and South Derbyshire have seen a reduction of one pharmacy per 100,000 population. Amber Valley, Erewash and South Derbyshire have seen a physical reduction of one pharmacy while growth in Bolsover's population has outweighed any change to existing provision. There has been no overall change to the rate of provision across the Derbyshire STP area. It should be noted in this statement that the addition of a new pharmacy in Derby has brought the total number back to the same as in the baseline period, although it is a distance selling (internet) pharmacy and not a physical walk-in premises.

Pharmacy opening hours

Pharmacies are able to apply to NHS England for changes to core opening hours, or notify them of changes to additional supplementary opening hours, throughout the year. Since publication of the PNA in March 2018 there have been a number of changes to individual pharmacy opening times. Pharmacies are required to keep their NHS UK entries up to date. For details of individual opening times that may have changed since PNA publication, please review the relevant entry on the [NHS UK website](#).

At the end of December 2018 there had been a physical reduction of four pharmacies across the Derby and Derbyshire area, with the addition of a new distance selling pharmacy in Derby. Whilst this is minimal and the one closure and three consolidations approved on the basis that they do not impact upon access, it is important to also consider the impact on reduced hours of availability throughout the week. A pharmacy normally has 40 core contractual hours (or 100 for those that have opened under the former exemption from the control of entry test)². Some pharmacies will also open for additional, supplementary hours throughout the week depending on need. Changes to core opening hours cannot be made without approval from NHS England, while changes to supplementary hours can be made by the pharmacy at any point subject to giving three months' notice.

At time of publication of the PNA 2018-21 there were over **10,000** core hours of pharmacy provision available to the population each week. The recent reduction in premises has removed **180** hours (**2%** of overall hours) per week. A more detailed analysis of impact throughout 2018/19, including changes to supplementary hours, will take place at year end.

It is anticipated that Supplementary Statement 04 will be published in April 2019 unless any significant change to provision should occur in the interim months.
