

IMPORTANT INFORMATION

Derby City Council

Home to School Transport response to COVID-19

Information from 1 June 2020

Government advice is that all vehicles operate at 25% capacity, so that means that taxis and hackney cabs will operate with 1 child, unless the children are from the same household.

To ensure social distancing, bigger vehicles will also be limited with the number of children they carry, for example a 10 seater minibus will only operate with 2 children.

Guidance has been issued to all passenger assistants, taxi drivers and providers to give them information on how and when to clean their vehicles, and how we will be operating going forward.

www.derby.gov.uk

If you want to transport your child yourself, we will reimburse you, this is paid at 45p per mile. If you do decide that a fuel reimbursement is the best option for your family, you will be able to change back to your original type of transport at anytime. If you are unsure what your travel arrangements are you can either speak to Derby City Council, or if you prefer to speak with the school, they can contact us on your behalf. For further information email schooltravel@derby.gov.uk or phone **642716**.

We have been paying our operators 90% of their contract value to ensure that they are able to provide transport for our children and young people.

Keeping safe
