REFERENCE
 For further information see Reference Card published separately.
NATIONAL GRID REFERENCE
 The lines on this plan from part of the National Grid and are spaced at 100 metre intervals.
 To give a large scale reference defining the position of a point to the nearest 10 metres present as follows:-
 EXAMPLE W 30 N 50 ROAD

EASTING		NORTHING	
Take east edge of square in which point lies and read the figure opposite the line on NORTH and SOUTH margins	Estimate rest of metres from the grid line	Take north edge of square in which point lies and read the figure opposite the line on EAST and WEST margins	Estimate rest of metres from the grid line
331	111	344	102
TEN METRE REFERENCE: SK 351430			

For further information see "The Projection for Ordnance Survey Maps and Plans and the National Reference System".
 The representation on this plan of a road, track or boundary is an indication of the existence of a right of way.
 A name on this plan does not imply that an act of law is in force.
 The absence of a name does not imply that an act of law is in force.

Base House	BH	Gravel Pit	GP	Signal Bridge	SB
Bank Mark	BM	Latter Rise	LR	Signal Post	SP

High or Low Water Mark of Mean Tide	H or L W M/T	High or Low Water Mark of Ordinary Spring Tide	H or L W O/S/T		

PARCEL NUMBERS AND ACREAGES
 The number and acreage of each parcel of land is shown within the parcel. It is important when identifying a parcel to specify the number (1) of the plan (1) on which it falls.
 IN PARCELS DIVIDED BY THE SHEET EDGE, THE ACREAGES ARE SHOWN TO SHEET EDGE ONLY.
